

Dear customers,

According to the General Terms and Conditions for Payment Services for Business Clients, as of January 15, 2025, a new Tariff for Interest Rates for Business Clients at United Bulgarian Bank AD comes into force.

The updated Tariff for Interest Rates takes into account the specifics of the products and services for business clients, the change is only visual in the structure of the information in the document itself, in the individual sections and titles. In terms of parameters/interest rates/other conditions, there is no change for clients compared to the currently valid ones. You can find the updated document [here](#).

Regards,  
UBB Team
